**IMPROVING ENGLISH PROFICIENCY**

- Listening/Speaking Skills
- Analytical Skills in English
- Enhancing English and Intellect via Humanism
- Conversational Skills/Critical Thinking
- Investigate Your Major

The language instruction program emphasizes improved understanding of spoken English and using oral English in informal social situations. Reading and writing skills are integrated into the program as a complement to the development of oral skills. Students are given community-based homework assignments which provide many opportunities to use English for daily life and to engage in conversations with American students and local residents.

Daily class activities use highly interactive and communicative methods to give students opportunities to develop both spoken fluency and increase their comprehension of the spoken language. The emphasis is on informal oral English in "real life" situations which students are likely to need in international encounters.

---

**CULTURAL UNDERSTANDING, RESEARCH & PRESENTATION**

- American values and institutions
- Cross-Cultural Understanding/Global Perspectives
- Leadership Skills

Students learn about core American values and institutions, such as academic freedom, educational systems, and volunteer organizations. In addition, they practice academic research and writing skills, with special attention to sharpening critical thinking skills and avoiding plagiarism. Finally, students polish their English proficiency and public-speaking skills through speeches, small-group discussions and whole-group presentations.

---

**FIELDWORK & INTERACTIVE ACTIVITIES**

- Visit Hawaii’s landmark sites
- Interact with others in real world settings
- Polish writing skills

Some assignments send participants to sites of historical and educational importance, where they must first interact with local residents by asking questions or conducting short interviews, and then write a paragraph on their experiences. Participants thus have the opportunity to engage in a real-world setting and to interact with other speakers of English, and get the chance for direct feedback on their own experiences and writing from their instructors.

**Program Objectives**

- Help Students Improve English oral fluency and critical thinking skills
- Develop students’ cross-cultural perspectives and communication skills
- Broaden Students’ Personal Horizons and Career Perspectives
